ELEPHANT VILLAGE
Sponge cloth 172x200 mm
Tray: Ø 39 mm
Design: Jeanette Karsten

Jeanette is a busy architect, artist and designer. She is educated at KTH and the School of architecture and at The royal institute of art, Stockholm, Sweden.

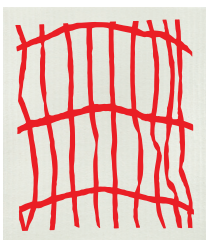

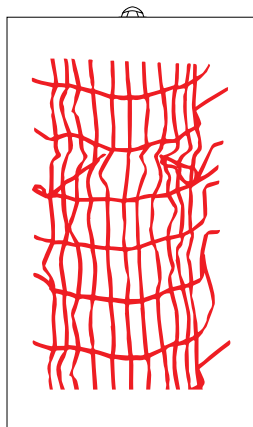

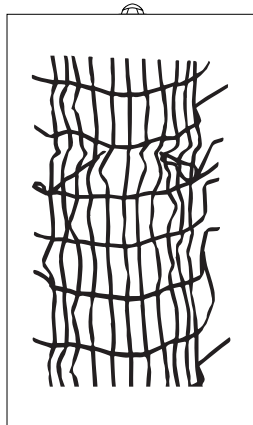

Jeanette is an internationally represented designer and she collaborates with some of the largest Swedish actors in form and interior. The inspiration comes from the world of dreams and life.

The Pattern "Elephant Village"

"The elephant is a cultural symbol that has always captivated me. It is problem-solving, has a good memory, safe, loyal, patient and an intelligent animal that always takes its own paths.

The pattern "Elephant village" appeared in my head when I sat and created odd mosaic tables. I saw in front of me a whole village with houses and streets from above and thought that my elephants should live there".

The pattern "Japano"

"My graphic and playful pattern "Japano" I originally drew a number of years ago in different colors for Frösö Handtryck on fabric and glass vases and glass dishes for the Duka Group. A piece of "Japano" has now landed elegantly on a sponge cloth and velour towel for Teko Tryck AB".

JAPANO
Sponge cloth 172x200 mm
Velour towel 30x50 cm
Tray Ø 35 mm
