

HANNA EMENIUS DESIGN

" I don't want to make products that are put away in a cupboard only to be used at special occasions once or twice a year. I want them to make every day life more beautiful."

Hanna Emenius Design is a Swedish based company. Hanna is a pattern designer who also works with logos and illustrations. Her inspiration can for example come from the aesthetics of the 60's or 70's, an old encyclopedia or just a technique she wants to try out.

All products are produced in Sweden with environmentally friendly materials.
