ELLES

Citronelles Agenturer AB

We believe in the genuine, that is made from scratch and carries a story. What could be better than highlighting what we have in our Nordic countries, such as Dala horses, folkloric patterns, beautiful house and magical coffee moments.

The houses in particular have become a hallmark of Citronelles as well as high quality with local manufacturing.

We all have a story from study times, birthplaces etc. which is connected to the different cities we have made patterns on which is appreciated. It started with Sigtuna and World Heritage sites such as Hälsingegårdarna and continues.
