William Morris

William Morris (1834 - 1896) was an artist, a craftsman, poet, scholar, and a revolutionary thinker.

Today, he may be best known for his wallpaper and textile patterns, but his work transformed Victorian Britain's view on craftsmanship, design and fashion.

Morris became one of the most influential figures in the Arts and Crafts movement. He began experimenting with various crafts and designing furniture and interiors. He was personally involved in manufacture as well as design, which was the hallmark of the movement that advocated individuality and know-how over the mass production and uniformity of the industrialism.

The William Morris Society

The Society operates from its museum in London, located in Morris's home in Hammersmith. The collections contain Morris's original works, manuscripts, and his personal artifacts; it is open for visitors.
